Front-End Web Developer (JavaScript, React.js, TypeScript, HTML, CSS)
During my two and half years of professional work experience, I have built several high-impact web solutions for diverse industry organizations. I am skilled in designing, developing, and testing web-based applications incorporating a range of technologies. Currently, I am aspiring to combine my background with my strong technical skills to excel as a Front-End Web Developer.

WORK EXPERIENCE

Front-End Web Developer - Technical School of Innovation AUCA, Bishkek, Kyrgyzstan. — *OCT 2021 - PRESENT*

- Managing web development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.
- Working closely with the back-end development team and clients to meet project requirements, goals, and desired functionality..
- Conducting training for clients to handle website content management systems.

Front-End Web Developer - Fanoos Accounting Services, Kabul, Afghanistan. — *JUN 2021 - AUG 2021*

- Built two Angular applications for the company; the first one facilitates the training and workshop management, and the second application automates payroll-related tasks.
- Developed a comprehensive user and developer documentation for both of the systems.
- Enhanced and maintained the existing website of the company, which led to an increase of 37% in user engagement.

Full Stack Web Developer - Civil Society and Human Rights Network, Kabul, Afghanistan. — *JUN 2020 - MAY 2021*

- Performed full website migration from PHP to JavaScript. I used Angular for front-end and Node.js for back-end, and deployed the application to AWS.
- Designed a database schema and developed a local MySQL database according to the organization's needs.
